### DevOps Engineer Job Description :

At MediaNV, customer experience is at the forefront of everything we do. To help us build functional systems that improve the customer experience, we're looking for a DevOps engineer who can be responsible for deploying product updates, identifying production issues, and implementing integrations that meet our customers' needs. The ideal candidate will have a solid background in software engineering and be familiar with JavaScript, NodeJS, PHP and will work with developers and engineers to ensure that software development follows established processes and works as intended. The DevOps engineer will also help plan projects and be involved in project management decisions.

### Objectives Of This Role :

- Building and implementing new development tools and infrastructure
- Working on ways to automate and improve development and release processes
- Testing and examining code written by others and analyzing results
- Ensuring that systems are safe and secure against cybersecurity threats
- Identifying technical problems and developing software updates and fixes
- Working with software developers and software engineers to ensure that development follows established processes and works as intended
- Planning projects and being involved in project management decisions
- Managing our local and cloud infrastructure

### Responsibilities:

- Deploy updates and fixes, and provide Level 2 technical support
- Build tools to reduce occurrence of errors and improve customer experience
- Develop software to integrate with internal back-end systems
- Perform root cause analysis of production errors and resolve technical issues
- Develop scripts to automate visualization
- Design procedures for system troubleshooting and maintenance
- Monitor server performance and logs to ensure almost no downtime

**Required skills and qualifications :**

- Experience as a DevOps engineer or in a similar software engineering role
- Proficiency with Git and GitHub workflows
- Basic knowledge of Javascript frameworks and it's deployment
- Working knowledge of databases like SQL and NoSQL
- Problem-solving attitude

**Why join us?**

- Competitive salary Guaranteed Incremental
- 5 days of the company (Monday-Friday).
- No Sandwich Leave Policy
- Health Insurance benefits
- Team gathering and outings on regular intervals.
- Great working and learning environment
- Generous leave policy
- Excellent working and learning platform
- Rewards and Recognition

**Address: Corporate House 3, Shreeya Amalga, Opp. Avalon Hotel, Thaltej, Ahmadabad-380059**
